

## optovue iscan80

### FULLY-FEATURED OCT MADE EASY

Meet iScan80®, the high-speed 80kHz OCT that sets the standard for efficiency-perfect for ECPs seeking an affordable and versatile OCT system. It's ideal for practices with limited staff since iScan80 delivers consistent scan acquisitions with minimal training and vocally guides patients through an entire exam with 12 different language options. The new iScan80 delivers the following advancements:

- 80,000 A-scans per second
- 3x faster than the original iScan OCT
- Simplified scan acquisition
- New reports
- Wider field of view

## optovue ivue80

### HIGH-SPEED 80KHZ OCT + FUNDUS CAMERA OPTION

The iVue®80 OCT is a powerful clinical tool that transforms the way you assess the retina, optic disc and the cornea. Easily measure the thickness of the retina, nerve fiber layer, ganglion cell complex and the cornea. Track change and predict trends in RNFL and GCC thickness and precisely measure angles to aid in disease diagnosis.

## optovue ifusion80

### THE COMPLETE RETINAL IMAGING IFUSION COMPREHENSIVE OCT AND CAMERA PLATFORM

iVue80 can be paired with the new high-resolution iCam12 fundus camera to create iFusion80, a space-saving, all-in-one imaging system.
