Custom Optical  
[www.customoptical.net](http://www.customoptical.net)

Since its inception in 1976, Custom Optical has been an industry leader in providing high quality, comprehensive optical services to Jacksonians. Owned and Managed by Trish Hammons, A.B.O.C., Custom Optical is dedicated to demonstrating excellence in the management of optical needs and the delivery of customer service. Whether optical needs include consultations on proper fitting, lens materials, style of lens, coatings or tints, Custom Optical enjoys a reputation of expertise and quality.

«I'm an old school optician and when I bought Custom Optical 7 years ago, they had the old AIT Mark V pattern edger. I had to update the place and wanted an edger that could do everything, especially drilling so I went with the Briot. I love it and it is user friendly and gives me quality work that I am proud to dispense. It also allows me live up to my name by being able to customize semi and rimless lenses! I wouldn't trade it for any other. I highly recommend you purchase a Briot. The service is excellent.»
